

Association Léz'Arts en Adrets , Commune of Hautecour, Savoie, France

Event organised in Hautecour on 6 August 2022

For more than 20 years, proposing an art trail was, for our association, a way to bring art to rural populations far from museums: a small stone brought to Culture

When Alain Mila proposed his "Sentinels of Peace" for our 2022 edition, we enthusiastically embraced the concept. Of course we are a very small association in a very small community (320 inhabitants) but every stone counts!

On the anniversary of the bombing of Hiroshima, we could have imagined that we would never see that again. Unfortunately, the terrible news shows us that past sacrifices no longer protect us from nuclear atrocities. So we need to show our commitment to the beautiful value of peace. In our small way, it is this artistic and moral support that we want to provide and we will encourage visitors to erect their sentinels to give a breath of hope to the reconquest of Peace in the world.

Catherine Lambert, President of the Association Léz'Arts en Adrets
